

At the end of each semester, students are given the opportunity to complete student evaluations of instruction (SEI) to provide feedback on the instructor and course. Below are the mean scores for the overall quality, learning, and teaching effectiveness in each course I've taught. Ratings are based on a 1-5 scale, with 1 indicating "poor or strongly disagree" and 5 indicating "excellent or strongly agree."

Semester	Class	Students	Quality	Learning	Effectiveness
Summer 2019	Principles of Macroeconomics	12	4.63	4.25	4.57
